A Miracle of Masonry

One of Masonry's miracles is that it creates a world within the Lodge where good men of any religion come together to eat, pray and live as brothers. Consider that for a moment. Do you know how rare that is around the rest of the world we live in?

A Masonic Pun

A candidate for initiation was to be picked up and driven to the Lodge, but before this could happen, the car broke down. The candidate said, as it was no great distance, he would go on his bicycle.

Just when he reached the top of the hill, his chain broke. As the lodge was at the bottom of the other side, all he needed was a backpedal brake. So, he repaired the chain with a cord he had in his pocket and free-wheeled downhill to the lodge.

Later that evening, in reply to a toast in his honor, he said how proud he was to be a Freemason but could not understand, as he told no one, how the Master knew that he had come on his own free wheel and a cord!

A Remembered Quote from History

"Think of all the years passed by in which you said to yourself, "I'll do it tomorrow" and how the gods have again and again granted you periods of grace of which you have not availed yourself. It is time to realize that you are a member of the Universe, that you are born of nature itself, and to know that a limit has been set to your time. Use every moment wisely, to perceive your inner refulgence, or it will be gone and nevermore within you reach.

--Marcus Aurelius (Meditations, 2.4)
